Part No: 232511710/15

Price: £65.83 (exc VAT) Save £8.34 (RRP £74.17) | £79.00 (inc VAT)

Specifications

232511710/15 Hedge Trimmer Attachment for 226J

This attachment will transform your split shaft Stiga brushcutter (Models SBC 226J/JD only) into an excellent long reach hedgetrimmer. Simply unfasten the strimmer shaft section of the brushcutter and replace it with the pruner shaft and you're ready to go - no tools are required.

Fitted with a 40cm double sided reciprocating blade the trimmer will slice through all types of hedging material up to 25mm in diameter with ease. Blade angle can be adjusted to suit your particular requirements from 45 degrees on one side to 45 degrees on the opposite one, and any position between the two.

The combined length of the attachment and the engine unit allows you to reach the top of tall hedges without having to resort to balancing on a ladder - keeping your hedges neat and tidy was never easier!

Optional Extras

Rock Groundsman 150 Chain Oil 1 Litre
