

Omega Magic Lift Jack 3.2 Ton

Part No: 29035-PU

Price: £119.95 (exc VAT) | £143.94 (inc VAT)

Specifications

Omega 29035-PU 3.2 Tonne heavy duty hydraulic service jack featuring traditional and proven gear type handle control. This all steel construction jack is solid and popular professional model and weighs in at 36.5kg.

Featuring MagicLift this service jack as extraordinary lifting speed, lifting from 145mm to the load in just one stroke of the handle. Ideal for use in applications where speed is a priority such as in the racing pit lane and paddock.

PU-wheels will deliver easy and silent moving and also prevent damage to oil tight garage floor coverings.

Omega service jacks also feature fully welded oil reservoirs that minimise oil leakage, an exclusively designed breather plug that automatically eliminates air in the hydraulic system thus optimizing lifting performance and foam handle grip for added protection to car bodywork.

Featuring patented hydraulic bypass system preventing the ram plunger from over traveling and a safety valve to protect against overloading.
