This is a shop display item and may not be supplied in the original shipping outer packaging, or point of sale packaging and may have cosmetic imperfections such as scratches or dents

Made primarily for the motor racing enthusiast, this jack weighs in at just 25kg.

Utilises many weight-saving techniques such as a skeletal lift arm and alloy load wheels.

Features Rocket Lift by use of twin pistons, bringing saddle to maximum height in minimal pumps.

Lifting bars are fitted either side of the anodised aluminium chassis enabling fast, lightweight pick-up.
