

TC39 6 TX-E RORS WRENCHES

Part No: TTRORS-EA

Price: £25.46 (exc VAT) | £30.55 (inc VAT)

Specifications

Teng TTRORS 6 Piece TX-E Metric Ratchet Ring Spanners

This Teng Tools set consists of 6 fibre-reinforced ratcheting offset TX-E spanners. The spanners are double ended, with a different size at each end. The 6-point heads are offset at a 25 degree angle, allowing better access. The ratchets have a reversible action, allowing tightening/loosening in both directions.

Manufactured from strong chrome vanadium steel with a satin finish.

Supplied in case with a removable hinged, click lock lid for use as an individual set or part of Teng Tools tool storage systems.

The TTRORS TP-E set contains Ratchet Ring Spanners in the following sizes:

E6 x E7, E8 x E10, E11 x E12, E14 x E16, E18 x E20 and E22 x E24.
