

01505 SIP 12" Sliding Compound Mitre Saw with Laser

Part No: 01505

Price: £299.99 (exc VAT) | £359.99 (inc VAT)

Specifications

01505 SIP 12" Sliding Compound Mitre Saw with Laser

The SIP 12" Sliding Compound Mitre Saw with Laser is a powerful, versatile and accurate woodcutting saw.

Designed with a belt-driven motor for smoother handling and quieter operation.

It is ideal for professional woodworking workshops, domestic or commercial premises and DIY uses.

Featuring a 12" blade for handling larger workpieces and making deeper cuts.

With compound functionality to perform both bevel and mitre cuts, this heavy-duty multi-process tool is ideal for frequent day-to-day use.

Key Features:

Fitted with a ? 305mm x 40TCT high-quality saw blade

High-torque belt-driven motor for smooth handling and quieter operation

Double bevel function is adjustable to 45° both left and right

-45° / 0° / +45° mitre range for greater cutting capacity

Adjustable depth-cut setting for tenoning and trenching tasks

Heavy-duty rotating table with pre-set mitre gauge stops

Specifications:

Input Supply: 230v (13A)

Motor Power: 1.8kW (2.4hp)

Blade Speed: 3800rpm

Blade Diameter: ? 305mm

Blade Bore Size: 30mm

Blade Teeth: 40TCT

Blade Thickness: 1.8mm min. / 2.8mm max.

Mitre Range: -45° / 0° / +45°

Bevel Range: Up to 45° (left and right)

Cutting Capacities: 00° x 00°: 330mm x 105mm (straight) 45° x 00°: 230mm x 105mm (mitre) 00° x 45°: 330mm x 60mm (left bevel) 00° x 45°: 230mm x 33mm (right bevel) 45° x 45°: 230mm x 60mm (left compound mitre) 45° x 45°: 230mm x 33mm (right compound mitre)

Product Dimensions: 600(H) x 650(W) x 890mm(D)
