Specifications

01719 SIP F25-GB 8-Speed 900W Floor Standing Pillar Drill

The SIP Industrial F25-GB 8-Speed 900w 400v Floor Pillar Drill is a heavy-duty pillar drill.

It is specifically designed for professional metalworking and fabrication workshops.

Featuring an 8-speed gear drive transmission, this drill delivers high torque output across a consistent spindle speed of 105rpm - 2900rpm for powerful and precise drilling up to 25mm max. diameter.

This allows the operator to set the exact spindle speed needed to drill the material.

A gear drive transmission also eliminates belt slippage as no manual pulley speed adjustments are required.

This allows for quicker and easier speed changes, which reduces downtime and increases workshop

productivity.

Features

8-speed gear drive transmission with wide 105-2900rpm speed range

Easy-to-operate headstock levers for precise spindle speed setting

High torque output for consistent drilling power and max. \varnothing 25mm

Fitted with heavy-duty drill chuck and compatible with MT3 (Morse Taper 3)

Large drill table with adjustable height and rotation for greater versatility

Heavy baseplate and central column to minimise vibration for stable drilling

Specifications:

Input Supply: 400v (16A)

Motor Power: 900w

No. of Speeds: 8 speeds

Speed Range: 105rpm - 2900rpm

Max. Drilling Capacity: 25mm

Spindle Taper: MT3

Table Size: 450mm x 320mm

Base Size: 405mm x 390mm

Column Diameter \varnothing 100mm

Swing: 608mm

Height: 1508mm

Spindle Travel: 125mm

Collar Diameter: Dia. 130mm

Max. Distance: 905mm (spindle to table)

Product Dimensions: 1508(H) x 560(W) x 570mm(D)
