

01987 SIP 8 Ton Horizontal Petrol-Powered Log Splitter

Part No: 01987

Price: £1079.99 (exc VAT) | £1295.99 (inc VAT)

Specifications

01987 SIP 8 Ton Horizontal Petrol-Powered Log Splitter

The SIP 8 TON Petrol Log Splitter is a heavy-duty log splitter.

It features a hydraulic piston ram with 8 TON of continuous force to split logs safely and efficiently.

Designed for agricultural and landscaping applications, this large capacity splitter is ideal for dried softwoods and hardwoods.

Petrol-powered for flexible use in outdoor environments, the horizontal steel frame is built to withstand the heavy forces involved in log splitting.

The protective steel guarding prevents accidental contact with the log splitting area.

Key Features

Hydraulic piston ram delivers 8 TON of continuous splitting force

Heavy-duty steel frame with horizontally-orientated splitting area

Large log capacity of ? 70mm - 300mm x 120mm - 520mm in length

Protective steel guarding prevents accidental contact with log splitting area

Petrol-powered with 3.6ltr tank capacity for mobile outdoor use

Large rough terrain wheels and pull handle for outdoor mobility

Specifications:

Engine Type: 196cc EURO V singe-cylinder OHV 6.5hp petrol

Splitting Force: 8 Ton

Hydraulic Pressure: 25MPa

Hydraulic Oil Capacity: 3.5ltr HP32 hydraulic oil

Fuel Tank Capacity: 3.6ltr

Log Capacity: ? 70mm - 300mm x 120mm x 520mm length

Noise Level: 108dB(A)

Product Dimensions: 1510(H) x 920(W) x 700mm(D)
