Specifications

SIP 02132 Diamond Suction feed spray gun.

A high quality spray gun with a 2mm nozzle, ideal for lacquer, professional painting or spraying some metal flake paints (according to particle size).

With a 1 litre locking paint reservoir cup, the 02132 also features a breather hose to reduce paint spillage and vacuum build up in the reservoir cup.

Using between 6.0 - 8.5CFM of air, at an operating range of between 65.0-87psi.

Fully adjustable fan control 180-230mm fan and fully adjustable air flow / fluid control output.

Suitable for water based paint.
