

02318 SIP 5L ISO 46 Semi Synthetic Screw Compressor Oil

Part No: 02318

Price: £125.99 (exc VAT) Save £6.00 (RRP £131.99) | £151.19 (inc VAT)

Specifications

02318 SIP 5L ISO 46 Semi Synthetic Screw Compressor Oil

The SIP 5L ISO 46 Semi Synthetic Rotary Screw Compressor Oil is a semi synthetic lubricant oil.

It is made from an economical blend of mineral and synthetic oils.

Including high Viscosity Index heat-stable virgin base oils to maintain viscosity under thermal load.

The high-strength slippery film provides reliable lubrication of moving parts.

It helps to reduce friction and prevent metal-on-metal contact while optimising energy usage.

A detergent additive system reduces carbon deposits and keeps internals clean.

With an oxidation-stable formulation that resists breakdown.

This oil is recommended for service intervals of up to 4000 hours on rotary screw and rotary vane compressors.

Key Features

ISO 46 semi synthetic oil suitable for rotary screw or vane compressors

High-VI heat-stable virgin base oils maintain viscosity under thermal load

Detergent additive system reduces carbon deposits and keeps internals clean

Oxidation-stable formulation resists breakdown during long service periods

High-strength film for superior protection and ultra dependable lubrication

Recommended for service intervals up to 4000 hours under suitable conditions
