

03564 SIP Battery Tester T2 12v

Part No: 03564

Price: £161.00 (exc VAT) | £193.20 (inc VAT)

Specifications

03564 SIP Battery Tester T2 12v

The SIP 12v Battery Tester T2 is a microprocessor-controlled unit which is Lithium-Ion, lead acid, AGM, GEL, and EFB compatible, offering starter, alternator, circuit, and battery condition testing.

Features:

9VDC to 29VDC car and motorcycle batteries; lead acid,

AGM, GEL, EFB, and Lithium-Ion battery compatibility

Starter, alternator, charging circuit testing; plus

battery condition checks and bad cell detection

Measures battery CCA; cold cranking amps

Data print function via software installation

Controlled via a powerful microprocessor

Easy-to-read LCD screen and touchpad

Integrated reverse polarity protection

Made in Switzerland / 2 year warranty

Specifications:

Output Power: 9VDC - 29VDC

CCA Range: 20A - 1000A

Starter Tests: 12v

Alternator Tests: 12v

Mass Ground Tests: No

Suitable For: ATVs / Motorcycles / Cars

Battery Types: PB, SLA, AGM, GEL, WET,

VRLA, CaCa, EFB, LiFePO4
