Specifications

05307 SIP Mercury Mech 4.0 -08 - 200 Screw Compressor

SIP PS17 Compressed Air Dryer

The PS17 Compressed Air Dryer is equipped with a high efficiency heat exchanger, as well as a condensate separator and control board that adjusts the fan according to the load.

Standard 230v (13amp) input supply

232.0psi (16.0 bar) maximum pressure

102m³/hr | 60CFM | 1700ltr/min flow rates

Suitable for screw and piston compressors

Can substantially improve any air tool life

Eliminates moisture from the air supply

Drys air optimally for spray painting

Integrated condensate separator

High efficiency heat exchanger

Control board adjusts the fan

Lightweight - weighs 27.0kg!
