

05712 HG1800CBW Inverter Welder Battery-Powered

Part No: 05712

Price: £1599.99 (exc VAT) Save £961.81

(RRP £2561.80) | £1919.99 (inc VAT)

Specifications

05712 HG1800CBW Inverter Welder Battery-Powered

No power? No problem! The SIP 05712 HG1800CBW Battery-Powered Inverter Welder provides 180A of powerful and portable welding current.

The 05712 is a lightweight and compact design weighing just 11.6kg, utilising the latest inverter technologies.

Perfect for welding applications in remote locations, construction sites, and wherever mains electricity supplies are not available.

KEY FEATURES

3 Welding Modes: MMA (ARC), MMA (ARC) with VRD, and Lift-TIG

Digital Display: easy-to-read battery power monitor and indicator

Inverter Technology: latest technology with integrated Lithium-Ion battery pack

Quality Welding: produces high-quality ARC and TIG welds from one charge

High Durability: manufactured with heavy-duty casing and visor

Specifications:

Battery Type: Lithium-Ion

Battery Capacity: 740Wh

Charger Voltage: 230v AC +/- 10%

Charging Time: 1.5hrs

Battery Output Voltage: 74v

Charging Current: 8A

Welding Current Range: 10A - 180A (MMA) / 10A - 150A (TIG)

Duty Cycle: 180A @ 10% / 130A @ 20% / 60A @ 100%
