### Specifications

#### 05718 SIP Autoplus 180ST MIG Welder 230V 25Amp

SIP 180ST MIG Transformer Welder - a powerful and robust heavy duty transformer and turbo fan cooling for increased cycles and reliable performance.

|                              |                         |
|------------------------------|-------------------------|
| Supply                       | 230v (25amp)            |
| Welding Current              | 30 to 145amp            |
| Peak Current                 | 180amp                  |
| Output @ 60% Duty Cycle      | 73amp                   |
| Open Circuit Voltage         | 15.5 - 21.25v           |
| Wire Size                    | 0.6mm to 1mm            |
| Wire Spool Size              | 5kg / 15kg              |
| Insulation Class             | Class H                 |
| Protection                   | IP21S                   |
| Output Power Settings        | 6                       |
| Approx. Weld Thickness Range | (mild steel) 0.8 to 7mm |
| Gross Weight                 | 57kg                    |

|                             |                   |
|-----------------------------|-------------------|
| Net Weight                  | 51.5kg            |
| Packaged Dimensions (HxWxL) | 815 x 500 x 950mm |
