

05723TROLLEY SIP Autoplus ECO 200 MIG Inverter Welder & Trolley

Part No: 05723TROLLEY

Price: £599.99 (exc VAT) | £719.99 (inc VAT)

Specifications

05723TROLLEY SIP Autoplus ECO 200 MIG Inverter Welder & Trolley

The SIP AUTOPLUS ECO 200 MIG Inverter Welder is a dual process inverter welder designed for use in automotive environments and sheet metal applications.

This package deal with complete with a 05719 SIP Large Cylinder Welding Trolley.

Compliant with Reg EU 2019/1784 (Eco Design for Welding Equipment), the powerful inverter technology can perform gas and gasless MIG and ARC welding tasks for outstanding versatility.

With superior ARC stability for greater welding control and reduced spatter, this AUTOPLUS delivers great performance for an assured weld in demanding applications.

KEY FEATURES

Complete with 05719 SIP Large Cylinder Welding Trolley

Dual Gas/Gasless MIG and ARC welding functions

Infinitely variable output adjustment for control

Dual LED display panel shows both volts and amps

Compact and portable design with carry handle

Supplied with torch and accessories

Specifications:

Input Supply: 230v (16A)

MIG ARC

Output Current: 30A - 200A 30A - 170A

Output Voltage: 15.5v - 23v 21.2v - 26v

Duty Cycle: 200A @ 15% 170A @ 15%

Electrode Diameter: ? 1.6mm, 2mm, 2.4mm, 3.2mm, 4mm

Wire Diameter: ? 0.6mm - 1mm

Wire Spool Size: 0.7kg - 5kg

Protection Level: IP21S

Insulation Class: Class F

Product Dimensions: WELDER: 440(H) x 195(W) x 280mm(D)

TROLLEY: 1140(H) x 490(W) x 550mm(D)
