Specifications

06275A SIP RS08-08-270Bd Rotary Screw Compressor

The SIP RS08-08-270BD is a belt-driven rotary Screw Compressor.

It utilises a combination of powerful components including a high-efficiency IE3 motor, Italian-made air end, and silenced cabinet enclosure.

The RS08-08-270BD is tested thoroughly by SIP technicians in the UK prior to despatch for added peace-of-mind.

The complete range of SIP Screw Compressors is designed to significantly reduce noise, emissions, and energy costs.

Features:

Electronic ETM II control with digital display; easy-to-use and reliable

Quality IE3 premium efficiency motor for reduced costs and emissions

Italian-manufactured air end which delivers high-quality constant airflow

Silenced cabinet enclosure reduces noise and maintains temperature

Heavy-duty cooling fan maintains the compressor's 100% duty cycle

Digital display shows pressure, hours, and temperature ranges

POLY-V belt-driven transmission for lower power losses

Front and rear access panels for easy servicing and maintenance

100% UK tested by SIP before despatch

SIP 2-Year Standard Silver Warranty

Manufactured in Italy

Specifications:

Input Supply 400v (32A) 3-PHASE

Motor Power: 10hp (7.5kW) IE3

Receiver Size: 270ltr

Controller Type: ETM II

Starter System Type: Star Delta

Free Air Delivery (FAD): 44.10CFM (1249ltr/min)

Max. Air Pressure: 116psi (8bar)

Connection Size: 3/4"

Noise Level: 68dB(A)
