

06286S Protech Airmate 150 litre Compressor

Part No: 06286S

Price: £699.98 (exc VAT) | £839.98 (inc VAT)

Specifications

06286S Protech Airmate 150 litre Compressor

SIP Airmate oil lubricated air compressor serves a 150 litre air receiver from a piston displacement of 18CFM to offer an output of 145psi.

Designed with an extra-hard wearing pump that runs slower than usual for extended life and resistance to wear and tear and an oversized crankcase for improved lubrication.

Featuring a strong plastic belt guard that protects the operator from injury whilst the multi-finned flywheel offers improved cooling so this machine can be used for longer periods of time.

Mounted on 2 extra large wheels and 2 smaller wheels to allow the machine to be moved around the workshop with ease.

This machine is ideal for both professional and industrial usage.

From the ProTech range of compressors manufactured in Italy you can rest assured your buying quality with this range, so much so it comes backed by a 2 year manufacturing warranty.
