Specifications

06387A SIP RS08-08-500BD Rotary Screw Compressor

The SIP RS08-08-500BD 500ltr Rotary Screw Compressor is a belt-driven rotary screw compressor.

It is designed to accommodate continuous compressed air production in a variety of professional and industrial environments.

It uses high-quality Italian-made components for robust, durable and versatile performance.

Each RS08-08-500BD is built to the highest standard in Italy, and then tested by experienced SIP technicians in the UK prior to dispatch for added peace-of-mind.

Features

Electronic ETM II control; simple, easy-to-use and reliable

IE3 premium efficiency motor for reduced costs and emissions

Italian-manufactured air end which delivers constant airflow

Silenced cabinet enclosure for reduced noise levels

Heavy-duty cooling fan maintains 100% duty cycle

100% UK tested by SIP before dispatch

Specifications

Input Supply 400v (32A) 3-PHASE

Motor Power: 10hp (7.5kW) IE3

Receiver Size: 500ltr

Controller Type: ETM II

Starter System Type: Star Delta

Free Air Delivery (FAD): 44.10CFM (1249ltr/min)

Max. Air Pressure: 116psi (8bar)

Connection Size: 3/4"

Noise Level: 69dB(A)
