Specifications

06951 SIP 430 Litre Portable Diesel Tank with 12v High Flow Pump

The SIP 430ltr Portable Diesel Tank with High-Flow 12v Transfer Pump is a compact and portable diesel tank.

It features a 50ltr/min pump for fast and efficient use.

Built with high-quality polyethylene, the tank is resistant to work area knocks and changeable weather conditions for long life use.

An internal enclosure includes the 12v transfer pump, fuel nozzle and diesel filling point.

Perfect for storing and transferring fuel in agricultural and commercial vehicle settings.

The unit can be easily secured on the back of a flatbed van, trailer or open back pick-up truck, making

it easy to move between locations.

Key features

High-flow 50ltr/min transfer pump for fast and efficient use

Durable 430ltr polyethylene diesel fuel tank for long life use

4mtr hose with high-quality aluminium nozzle for added durability

Operates from a 12v battery for flexible outdoor use

Forklift channels and lifting eyes for easy vehicle transfer

Locking clasps to secure lid and restrict access
