Specifications

07001 600A 12v Jump Start Booster Pack

The SIP 600A 12v Capacitor Booster is an innovative handheld portable device designed to discharge a high current boost needed to start a car or small van battery.

Offering powerful performance in a compact unit, the 600A Capacitor Booster is ideal as a safeguard for home users which can be easily stored or as a quick and easy solution for small automotive workshops.

Applications & uses | Perfect for starting small cars and vans, home or small automotive workshop use, and starting up to 3ltr petrol engines or 2ltr diesel engines.

Lightweight capacitor energy cell -

Offers reliable and powerful performance when you need it most and without the weight, inefficiency or deterioration of an internal battery.

60 second preparation 'ready' time for fast boosting capability -

This no-maintenance innovation is ready-for-use in as little as 60 seconds and it's easy-to-use functionality means you'll feel in control when delivering it's power.

Robust, portable and compact design -

Stores easily in a vehicle glovebox or boot for use in emergencies.
