Specifications

07005 1600A 12v Jump Start Booster Pack

The SIP 1600A 12v Capacitor Booster is an innovative handheld portable device.

It is designed to discharge a high current boost needed to start large cars or large vans, agricultural or construction equipment.

Offering powerful performance in a compact and portable unit, it is ideal as a safeguard for automotive and machinery workshop users which can be easily stored or as a quick and easy solution.

Key Features

Lightweight capacitor energy cell

140 second preparation 'ready' time for fast boosting capability

Powerful, portable and compact design

Specifications:

Starting Current: 800A

Peak Current: 1600A

Input: > 6v DC

Output: 12v Engine Start

Capacitor Charge Time: 140sec (70Ah battery)

Temperature Range: -40°C to 65°C

Reverse Polarity Protection: Yes

Short Circuit Protection: Yes
