Specifications

08202 TIGREN TGN120MAT MIG/ARC/TIG Inverter Welder

The TIGREN TGN120MAT MIG/ARC/TIG Inverter Welder is a ready-to-weld 4-in-1 machine.

It offers powerful performance for Gas/Gasless MIG, ARC, and Lift-TIG welding, bolstered by infinitely variable power output and powerful IGBT inverter technology.

Ideal for a range of home, trade, and professional applications.

Perfect for repair and maintenance of vehicles and other welding projects.

Features:

4-in-1; Gas/Gasless MIG, ARC/MMA, and TIG processes

Infinitely variable output settings for high versatility

Lightweight and compact design for simple portability

2-roll wire feed unit with wired-in MIG welding torch

Ready-to-weld straight out the box!

Specifications:

Input Supply: 230v (13A)

Output Current: 15A - 120A (MIG)

15A - 70A (MMA/TIG)

Duty Cycle: 120A @ 15% (MIG)

70A @ 15% (MMA/TIG)

Electrode Diameter: Ø 1.6mm - 2mm

Wire Diameter: Ø 0.6mm - 0.8mm

Wire Spool Size: Solid & Flux; Ø 100mm

Welding Thickness: 1.5mm - 2mm
