Specifications

08209 TIGREN 16" Log Saw

The TIGREN 16" Log Saw is a powerful saw.

It is designed to cut and sever logs quickly and effortlessly via 2-handed cutting and spring-assisted anti-kickback device for the highest operator safety.

It has durability with a high-quality powder-coated steel frame and chassis.

Fitted with a 405mm TCT saw blade and a fully enclosed cutting cradle, it is ideal for home use, enthusiasts and DIY applications.

Features:

Severs logs up to Ø 140mm diameter, and cuts lengths from 300mm to 1000mm quickly and effortlessly

Designed for effective 2-handed safety cutting in mind, and thus is fitted with a spring-assisted anti-kickback device

Quality powder-coated steel frame and chassis which houses a fully enclosed cutting cradle and pivoting cutting action

For added safety and security, the log saw can be bolted to the ground via 4 pre-drilled holes in the leg or feet (bolts not supplied)

405mm TCT saw blade is ideal for home users, DIY, and enthusiasts

Powerful 2.2kW induction motor for heavy-duty performance

Specifications:
