Specifications

08957 SIP Tempest PH720/150 Hot Electric Pressure Washer

The SIP TEMPEST® PH720/150 Hot Water Electric Pressure Washer.

It provides hot and cold water performance through a diesel-fired boiler that heats from 30 to 98°C.

Ensuring optimised cleaning of stubborn, deep-seated grime, dirt, moss or organic matter in commercial and industrial environments.

For increased mobility over uneven surfaces, the PH720/150 is mounted on 4 wheels and fitted with a large handle for easy steering.

To prevent tangling or trip hazards, it is designed with storage solutions for the lance, power cable and the 4 nozzles included.

Key Features

Powerful 2175psi (150bar) max. output and 720L/hr max. flow rate

Ideal for hot and cold cleaning in commercial and industrial environments

3.1kW (4.2hp) 4-pole brushless induction motor for quieter, smoother running

Brass-headed triplex crankshaft pump for durability and corrosion resistance

Wheel-mounted design with large handle for easy movement over uneven surfaces

Robust body with storage hooks and tray to prevent tangling or trip hazards
