Specifications

09233 SIP Fireball DV170 110/230v Propane Space Heater

The SIP FIREBALL DV170 110v/230v Dual Voltage Propane Space Heater is a powerful and portable dual voltage propane heater with adjustable heat control.

Designed to quickly and effectively heat larger-sized workshops and garage spaces, it also features 110v/230v dual voltage input supply, making it ideal for on-site work areas.

Featuring durable long life components for effective fuel transfer and heat distribution, the FIREBALL DV170 delivers safe and continuous heating.

Key Features:

120,000BTU/hr (35kW) to 170,000BTU/hr (50kW) variable heat output

Approximate heating area of 1145mtr³ (40,829ft³)

Fuel consumption 3kg/hr - 3.86kg/hr

Dual voltage 110v/230v input supply for added flexibility

Push-button Piezo ignition for safe, reliable, easy start-up

Supplied with an approved gas regulator and hose

Compact floor-standing design with carry handle

Specifications:

Input Supply: 110v / 230v (13A)

Max. Heat Output: 170,000BTU/hr (50kW)

Variable Heat Output: 120,000BTU/hr (35kW) - 170,000BTU/hr (50kW)

Approx. Heating Area: 1145mtr³ (40,829ft³)

Fuel Type: Propane

Approx. Fuel Consumption: 3kg/hr - 3.86kg/hr

Product Dimensions: 385(H) x 220(W) x 640mm(D)
