Specifications

09236A SIP Fireball IDX44 Infrared Diesel Heater 3pc Kit

The SIP FIREBALL IDX44 Industrial Infrared Diesel Heater is an infrared heater designed to quickly and effectively heat well-ventilated warehouses, commercial spaces and large workshops.

Infrared heaters are designed to heat objects, people and surfaces directly, rather than warming only the air in a workspace. This means they distribute heat more evenly and efficiently.

Supplied with a 3pc stainless steel flue kit to safely carry exhaust fumes away from the work area.

Key Features:

44,000BTU/hr (13kW) powerful heating output

Approximate heating area of 303mtr³ (10,712ft³)

Integrated thermostat for flexible temperature control

Supplied with a 3pc stainless steel flue kit

Wheel-mounted design with lockable castors for mobility

Enhanced safety features for greater user protection

Specifications:

Input Supply: 230v (13A)

Max. Heat Output: 44,457BTU/hr (13kW)

Approx. Heating Area: 303mtr³ (10,812ft³)

Fuel Type: Diesel

Approx. Fuel Consumption: 0.95kg/hr - 1.14kg/hr

Product Dimensions: 870(H) x 310(W) x 1100mm(D)
