Specifications

09305 SIP Fireball ID51 15Kw Infra Red Diesel Heater

The SIP FIREBALL ID51 15kW Infrared Diesel Heater is a durable infrared heater designed to quickly and effectively heat medium-sized workshops and garage spaces.

Infrared heaters are designed to heat objects, people and surfaces directly, rather than warming only the air in a workspace. This means they distribute heat more evenly and efficiently.

Key features:

50,000BTU/hr (15kW) powerful heating output

Approximate heating area of 350mtr³ (12,360ft³)

Integrated thermostat for flexible temperature control

Stainless steel deflector protects floor against heat damage

Compact floor-standing design with carry handle

Powder-coated finish for added durability

Specifications:

Input Supply: 230v (13A)

Max. Heat Output: 51,00BTU/hr (15kW)

Approx. Heating Area: 350mtr³ (12,360ft³)

Fuel Type: Diesel

Fuel Tank Capacity: 11ltr

Approx. Fuel Consumption: 1.5kg/hr

Product Dimensions: 556(H) x 306(W) x 553mm(D)
