Specifications

09532 SIP 4pc Contour & Flush Butt Welding Clamp Set

The SIP 4pc Contour & Flush Butt Welding Clamps are designed to position and align sheet metal panels.

For either curved, contoured or straight panels, helping to create a secure and precise gap between sheet panel workpieces.

Ideal for tack welding panels together, before removing and completing the welding process.

These versatile and easy-to-use clamps are perfect for welding applications where workpiece alignment is crucial.

Perfect for automotive environments, car restoration tasks and sheet metal fabrication workshops.
