

## 09710 WINNTEC Lift Pad EV

**Part No:** 09710

**Price:** £30.33 (exc VAT) | £36.40 (inc VAT)

### Specifications

09710 WINNTEC Lift Pad EV

The WINNTEC® S Liftpad offers added stability and protection when lifting vehicles for maintenance and minor repairs.

Applications include tyre changes, brake work and under vehicle inspections.

For added versatility, the magnetic base pad features both a deep ridge X-groove and aperture for a manufacturer's adaptor.

This makes it compatible with vehicles using either pinch seam or recessed lift points.

Strong and durable, the pad easily screws into the saddle of a WINNTEC® Trolley Jack.

It ensures a secure hold in the lift point for damage-free lifting and protection to the vehicle undercarriage.

Features

Offers added stability and protection for damage-free vehicle lifting

Magnetic base pad easily screws into the saddle of a WINNTEC® Trolley Jack
