

1015635 Dust Mask 5311 FFP3 (10x)

Part No: 1015635

Price: £35.88 (exc VAT) | £43.06 (inc VAT)

Specifications

1015635 Dust Mask 5311 FFP3 (10x)

Assortment of ergonomically-shaped dust masks for single use

Offer the best compromise in performance under regular work conditions.

Application range guide:

FFP1: working in environments with non-toxic dust, fine mist and smoke

FFP2: working with softwood, glass fibres, metal and plastics (other than PVC) and in oil-based dust

FFP3: working with toxic metals, hardwood, radioactive and biochemical materials, in oil-based dust and when welding stainless steel

Properties:

Large inner volume

Elastic fastened on the outside prevents infiltration of particles.

Exhalation valve provides for little airway resistance and thus higher comfort.

Pre-formed upper section with coloured nose piece (the colour indicates the protection class)

Masks without latex, silicone, or PVC

The masks are tested with dolomite.

EN149: 2001 and A1: 2009
