

2151 SIP Medusa T14000 Silenced Diesel Generator

Part No: 25151

Price: £7191.00 (exc VAT) | £8629.20 (inc VAT)

Specifications

2151 SIP Medusa T14000 Silenced Diesel Generator with 230v and 400v 3 Phase outputs

The SIP MEDUSA T14000 Silenced Diesel Generator is a mobile power supply solution.

It is suitable for workshops, general construction, mobile hospitality and standby applications. Other uses include powering machinery, tools and lighting.

The Automatic Transfer Switch is easy to connect and ensures supply continues running when power is interrupted, supporting use as a standby generator for dependable supply when needed most.

A 230v (3.2kW) and two 400v (10kW) sockets are fitted to the control panel for 3-phase power output.

A 12vDC 6A supply output is also included.

It provides a runtime of 18hrs at 50% load from a 35ltr fuel tank. Powerful yet silenced, the generator

is enclosed in a heavy-duty metal cabinet for soundproofing.

Key Features

13.7kVA (11kW) peak / 12.5kVA (10kW) continuous outputs

230v and 2x 400v supplies with AVR (Automatic Voltage Regulator)

Heavy-duty silenced generator cabinet

Digital display indicates volts and runtime

Automatic transfer switch

Fitted with castor wheels for indoor mobility

Specifications:

Engine Type: EURO V 0.9ltr diesel single cylinder

Start System: Key ignition electric start

Alternator Type: 3-PHASE AC generator

Regulation: Automatic Voltage Regulator (AVR)

Peak / Cont. Output: 13.7kVA (11kW) / 12.5kVA (10kW) continuous

AC Voltage: 230v @ 3.2kW / 400v @ 10kW

DC Voltage / DC Current: 12v / 6A

Fuel Capacity: 35ltr

Runtime: 9hrs @ 100% load / 18hrs @ 50% load

Battery Specification: 12v 45Ah

Protection Class: IP23M

Sound Power (LwA): 112dB(A)
