

25288 SIP Professional Spotweld 22E 230v

Part No: 25288

Price: £1079.99 (exc VAT) | £1295.99 (inc VAT)

Specifications

25288 SIP Professional Spotweld 22E 230v

The SIP Professional Spotweld 22E is a handheld spot welder fitted with a heavy-duty transformer. Ideal for automotive and light sheet metal applications where space is limited.

230v (25A) supply, 2.3kW max power

Powerful 6300A max. welding current

Utilises a heavy-duty welding transformer

Suitable for automotive and light sheet metal

2+2mm (mild steel) / 6+6mm welding capacity

120mm arm, 40-120kg adjustable pressure

100mm (top) / 50mm (bottom) electrodes

Microprocessor-controlled; fuzzy logic for

simple operation and better weld quality

Automatic welding current time control

Fully adjustable tip pressure

Built-in thermal protection

3 year warranty

Made in Italy

Input Supply 230v (25A)

Max. Input Power 2.3kW

Open Circuit Voltage 2.5v

Max. Welding Current 6300A

Max. Welding Capacity 2+2mm (mild steel) / 6+6mm \varnothing

Electrode Length (top) 100mm / (bottom) 50mm

Operation Electronic welding current

Welding time

Arm Length 120mm

Arm Pressure 40-120kg adjustable

Net Weight 11.10k
