Specifications

25403 SIP Medusa ISG4500 Digital Inverter Generator

The SIP MEDUSA® ISG4500 4.5kW Digital Inverter Generator is a low noise petrol generator.

Designed with powerful inverter technology that offers a clean and stable pure sine wave output.

Suitable for a range of electronics, devices and tools, including those susceptible to electrical wave distortion.

An enclosed design reduces operating noise - just 62dB(A) - compared to traditional open-frame generators.

Ensuring powerful and dependable 230V performance in noise-sensitive environments, including domestic, leisure and trade use.

For outstanding mobility, it is wheel-mounted with folding handle and anti-vibration feet.

Perfect for easy positioning and safe, efficient transportation.

Key Features:

Powerful 224cc 4-stroke petrol engine for dependable 4.5kW max. output

1x 230V (13A) and 1x 230V (16A) sockets that can be used simultaneously

Clean and stable pure sine wave (THD <3%) output ideal for sensitive electronics

Enclosed design reduces noise to just 62dB(A) for use in noise-sensitive spaces

Integrated economy control switch for low loads and increased fuel efficiency

Wheel-mounted with large folding handle for outstanding portability
