Specifications

Stiga BC740 Brushcutter

The BC740 is equipped with a high-capacity 35.3 cc air-cooled two-stroke engine and weighs just 8.1 kg.

It offers powerful performance and low-effort handling.

STIGA's new-generation engine technology maximizes power-output, while minimizing the emission exhaust gas pollution by a huge 60% and cutting fuel-consumption by an impressive 20%.

STIGA's Easy Start system ensures dependable ignition from hot or cold.

The BC 740 comes with a cutter head - there's a twin-line grass-trimming head ideal for tidying lawn edges and fence lines.

The three-tooth metal brush cutting blade is designed to clear more challenging vegetation, such as nettles, bramble and brushwood.

The line head's Bump & Work system means you can renew the line without attending directly to the spool.

Thanks to its weight-reducing aluminum shaft, soft-grip 'loop' handle and vibration-control system, the BC 740 is easy to manage and will sit comfortably in the hands for as long as it takes to complete

the job.

Contributing further to comfort and simplicity of operation is a double shoulder harness and a multi-function control handle.

5 year warranty*

This Garden Machinery product can be collected in-store or is only available for local delivery to the following local Postcodes HR, WR, SY & LD.

We also provide full parts backup, servicing and workshop facilities by our own Mountfield & Stiga trained and accredited staff.

***Warranty Terms & Conditions.**

To maintain the 5 year warranty the mower must be serviced before the end of the first year of ownership and annually thereafter by an authorised Mountfield dealer.

Failure to keep the Mower serviced at these intervals will result in the warranty reverting to a standard warranty period.

Optional Extras

1911-9259-01 Double Harness Elite

Part No:
