The Stiga Park 700 WX Front Mower is a mid-size model in the Park range capable of handling a lawn area up to two acres in size.

The powerful 635cc STIGA ST 650 Engine, Hydrostatic Transmission, 4WD with Tuff Torq Transaxle and impressive up to 125cm cutting width make light work of larger areas.

Visibility is superb; manoeuvrability slick and cutting is precise thanks to the 50:50 light to operate articulated power steering system.

The twin-bladed cutting deck allows cutting widths of 95 to 125cm to be achieved from the front mounted floating deck.

The Park 700 WX features 4 wheel drive Transmission.

The mulching blades ensure the grass clippings are finely cut into a nitrogen rich mulch to recycle back onto your lawn as a natural fertiliser.

The Bluetooth module connects to a smart phone notifying maintenance and task data.
