

Stiga Gyro 900e Axial Mower

Part No: 2F7064705/ST1

Price: £8665.83 (exc VAT) | £10399.00 (inc VAT)

Specifications

Stiga Gyro 900e Axial Mower 25cm Cut Width for Lawn sizes up to 115 x 115 Metres (13000m²)

The STIGA Gyro is the first ever drive-by-wire joystick mower with STIGA Direct Drive technology.

Battery-powered, energy-efficient and safe. The STIGA drive-by-wire system is really intuitive and easy to manage.

The whole design and functioning of the STIGA Gyro axial mower is built on the patented STIGA Direct Drive technology.

It features a 125 cm heavy-duty cutting deck, equipped with three freely rotating blades- each powered by 1,5 kW motor to ensure the best performance ever.

Thanks to these new blades, designed and engineered by STIGA, Gyro achieves best-in-class results - both in rear discharge and mulching mode.

The cutting deck can be adjusted to eight positions, all through a button on the dashboard.

With STIGA Smart Cutting and Driving Modes, you can select from three blade speed settings ranging 2800 to 3200 rpm and three driving modes from 4 km/h to 13 km/h depending on your mowing needs and style.

Engineered for very large lawns, STIGA Gyro 900e can mow up to 13000 sqm area, with minimum noise and vibrations.

Gyro 900e also gives optimum stability on slopes up to 15° thanks to a very well-studied weight distribution and a very low centre of gravity (just 55.3 cm).

The peak of safety is further enhanced by speed limitations and safety brake to give a split second response in the event of an emergency situation.

Comfort has no limits thanks to the premium high-back support seat, unobstructed access and a wide footboard.

A dual parallel suspension system absorbs vibrations across bumpy ground making the drive more comfortable.

All the electric commands are close to hand so you are always in control.

Specifications:

For Lawn Size: Up to 115 x 115 Metres

Cutting width: 125cm

Cutting Heights: 25 - 135mm

Cutting Positions: Stepless - Electronically set

Run Time: 150 minutes

Charging Time: 330 minutes

This Garden Machinery product can be collected in-store or is only available for local delivery to the following local Postcodes HR, WR, SY & LD.

A range of optional related parts products for the Gyro 900e will be shown at the bottom of the page when available
