

## Sun Power S180 solar device

**Part No:** 372021

**Price:** £245.45 (exc VAT) | £294.54 (inc VAT)

### Specifications

#### Sun Power Solar Technology

##### Sun Power S180

Efficient, inexpensive solar device for smaller fences without vegetation.

Ideal for smaller horses and cattle pastures, also suitable for small animals such as dogs and cats.

Included:

- integrated 12 V, 7 Ah gel battery
- integrated 12 V, 2 watt solar module
- connector cable for fence and earth connection

Recommended accessories:

- 230 V mains adapter for recharging the gel battery or for maintenance charging during winter months - item no. 371021
- ground and tethering post (two-part) - item no. 371022

Use the natural power of the sun!

- handy, ergonomic housing with a rear-ventilated solar panel for optimum cooling and long life for the battery and electronics
- safely withstands even longer periods of bad weather thanks to the highly efficient AKO POWERtronic technology
- optimised for maintenance-free continuous operation over the grazing season on fences with little vegetation
- special feature: input for 230 V mains adapter – always-available peak output power
- clear display for fence voltage and charge status
- simple battery charging without dismantling possible
