

5092943 Waxoyl Rustproofing Clear Aerosol (400ml)

Part No: 5092943

Price: £10.95 (exc VAT) | £13.14 (inc VAT)

Specifications

5092943 Waxoyl Rustproofing Clear Aerosol (400ml)

Waxoyl is a thick, waxy fluid saturated with very powerful rustkiller.

Waxoyl kills off old rust and prevents new rust and is often applied to vehicle underbody and frame areas.

The Waxoyl solution will then instantly chase out moisture and form a flexible, weatherproof skin that doesn't crack, dry out or wash off in the rain.

Can also be applied to the insides of doors, panels, box sections, behind sills and chassis and anywhere that water is likely to collect.

Waxoyl is typically used on cars, motorcycles, caravans, boats, trailers and on car and fork lift batteries.

Do not apply to stressed plastic body mouldings or rubber trim.
