

Wynn's Diesel Injector Cleaner

Part No: 51668A

Price: £7.95 (exc VAT) | £9.54 (inc VAT)

Specifications

51668A Wynn's Diesel Injector Cleaner

Wynn's Injector Cleaner for Diesel Engines is a treatment, which increases engine performance, reduces black smoke and improves MPG.

Product Features:

- Cleans injectors and restores spray pattern.
- Improves the ignition quality and combustion of diesel fuel.
- Facilitates cold starting.
- Reduces diesel knocking noises and soot particulates.
- Reduces black exhaust smoke.
- Cleans and protects the entire fuel system against rust and corrosion.
- Lubricates pumps and injectors and compensates for the reduced lubrication of low sulphur diesel.
- Prevents fouling of the fuel filter.

Applications:

Recommended for all diesel engines with or without turbocharger.

In case of diesel knocking, difficult starting, too much black exhaust smoke, poor functioning of pump and injectors, high fuel consumption.
