

52-0001A Rage 255mm Multipurpose Sliding Mitre Saw 240v

Part No: 52-0001A

Price: £179.65 (exc VAT) | £215.58 (inc VAT)

Specifications

52-0001A Rage 255mm Multi

MULTI-MATERIAL CUTTING TECHNOLOGY

Utilising patented Evolution RAGE® multi-material cutting technology.

This sliding mitre saw is optimised to cut mild steel, non-ferrous metals, wood, even wood with embedded nails and plastic with a single blade.

No blade changes = Faster work!

ACCURATE

Clean & consistent smooth cuts. Cuts to within +/- 0.5°

300mm x 80mm Cross Cut Capacity

24 Tooth TCT blade with optimised gearbox ensures the best RPM for cutting steel* and wood with embedded nails.

Virtually no burrs on steel = instant workable finish.

0° - 45° bevel & 50° - 50° mitre.

Trim skirting boards, cornices, boards, decking and more up to 300mm x 80mm.

Wide base & rubber feet reduces vibration & increases precision.

RELIABLE

160 hour motor life**

Cut test endurance at 40,000 cuts.

Combined components improves durability and accuracy.

Precision component machining to deliver consistent cutting accuracy.

3 Years limited warranty.

POWERFUL

2000W Hi-Torque Motor.

Ambidextrous, ergonomic, horizontal trigger with comfortable grip = combats repetitive strain.

Hi-torque gearbox & blade system, increases motor & blade-life.

Evolution saws have an optimised gearbox and motor combination that gives you more torque and the perfect speed for cutting a variety of materials with the same blade.

The Evolution saws' lower RPM develops extra torque needed to cut steel and other materials safely and cleanly without burrs, heat, and virtually no sparks when used with an Evolution multipurpose blade.

purpose Sliding Mitre Saw 240v
