## 7187 Stainless MIG Welding Wire 0.8mm 5kg

**Part No:** 7187

**Price:** £49.95 (exc VAT) | £59.94 (inc VAT)

## **Specifications**

7187 Stainless MIG Welding Wire 0.8mm 5kg

You can rely on Super 6 308 LSI Stainless Steel MIG Wire for its superior welding capabilities.

With its ability to weld 18/8 austenitic stainless steels, this wire is perfect for industries such as chemical, food, and power generation.

It offers not only corrosion resistance, but also wear resistance for added durability.

For welding 18/8 (304) austenitic stainless steels providing good corrosion and wear resistance

Often used in Chemical, food and power generation industries

Specifications:

**Mechanical Properties** 

Melting Point °C: 1440

12-12-2025 1/2

UTS N/mm2: 640

Hardness BHN: 180

Chemical Composition: C 0.04 | Si 0.80 | Mn 1.50 | Ni 10.0 | Cr 21.0

Welding Positions: PA, PB, PF, PC, PE

Current Type: DC+

Shielding Gas: 98% Argon 2% Oxygen

12-12-2025 2/2
