

7202 0.8mm 5kg Stainless Steel 316 MIG Welding Wire

Part No: 7202

Price: £54.95 (exc VAT) | £65.94 (inc VAT)

Specifications

7202 0.8mm 5kg Stainless Steel 316 MIG Welding Wire

You can rely on Super 6 308 LSI Stainless Steel MIG Wire for its superior welding capabilities.

With its ability to weld 18/8 austenitic stainless steels, this wire is perfect for industries such as chemical, food, and power generation.

It offers not only corrosion resistance, but also wear resistance for added durability.

A molybdenum bearing stainless steel with low carbon content.

It is corrosion resistant for welding molybdenum bearing austenitic stainless steel Power generation, chemical and food industries applications

Specifications:

Mechanical Properties

Melting Point °C: 1440

UTS N/mm2: 650

Hardness BHN: 180

Chemical Composition: C 0.02 | Si 0.80 | Mn 1.50 | Ni 12.0 | Cr 19.0 | Mo 2.00

Welding Positions: PA, PB, PF, PC, PE

Current Type: DC+

Shielding Gas: 98% Argon 2% Oxygen
