

7424SS Hardfacing Rods 3.2mm (7424S)

Part No: 7424SS

Price: £7.95 (exc VAT) | £9.54 (inc VAT)

Specifications

7424ss Welding Rods 3.2mm (x8) Superhard 650

Length 350mm 140-180 Current

Hardness 58-60 HRC

Standards DIN 8555: E6-UM-60-S

Features and applications:

High alloyed air hardening type electrode depositing non-machineable weld metal.

The deposit is free from Cracks, porosities and inclusions.

Recommended for rock drills, Coal cutter blades, bulldozer blades, excavator teeth, bucket lips and other metal to metal wear
