

AB708 Sealey Space Warmer 70,000Btu/hr

Part No: AB708

Price: £389.95 (exc VAT) | £467.94 (inc VAT)

Specifications

AB708 Sealey Space Warmer 70,000Btu/hr

70,000Btu/hr Heat output.

Output 20.5kw

Clean burning.

Proven pump system can operate with either paraffin, kerosene or diesel.

19 Ltr fuel tank

9 hour run time on full tank

Automatic shut off

heated area 13,600ft cubed

Fitted with safety cut-out.

Complies with rigorous standards.

Sealey Advantages

PARAFFIN/KEROSENE OR DIESEL? - The Sealey AB heaters will operate on either. Diesel however does not burn as cleanly.

CLEAN BURNING - A specially designed burner head in a stainless steel combustion chamber ensures a more thorough burn of fuel which means greater fuel economy and maximum heating effect.

FILTER PROTECTION - The compressor unit is protected by extra large filter.

LARGE FUEL TANK - The AB Series heaters will operate for between 8 and 14 hours on a single fill of fuel.

SAFETY FEATURES - The AB Series heaters are fitted with a flame-out device which cuts the fuel supply when the flame is inadvertently extinguished.

QUALITY - Manufactured to comply with the rigorous standards. Built to survive life in any environment, no matter how demanding.

AFTER SALES SERVICE - The best after sales service in the business. Full spares back up for all models.
