Specifications

AK452 Single Handle Grease Gun Coupler

- Leak-proof - ensures a secure, tight fit, preventing grease from leaking during application, saving time and reducing mess.
- Durability - made from high-quality, corrosion-resistant materials, built to be long-lasting and reliable.
- Easy to use - featuring a quick-connect design allows for fast and efficient attachment to grease fittings.
- Versatile - compatible with a wide range of grease guns and fittings, making it a versatile tool for various mechanical and automotive applications.
- Efficient - strong grip and reliable seal ensures consistent grease flow, reducing the likelihood of blocked or under-greased components.
