### Specifications

BT2011 Digital Start/Stop Battery & Alternator / Starter Tester 12/24v

Robust and simple-to-use design offers a full in-vehicle diagnosis of the vehicle battery, starter motor and alternator in seconds.

Professional tool supports all 12V batteries including standard Lead-Acid, VRLA, GEL plus AGM and EFB found on all Start/Stop vehicles.

The in-vehicle test mode allows diagnosis of battery health, state of charge, internal resistance, cranking voltage and a comprehensive charging system voltage at rest and under load.

Equipped with reverse polarity protection and a battery temperature compensation feature.

Fitted with a heavy-duty rubber protection cover.
