### Specifications

Exol Antifreeze Coolant MEG Blue 5 Litre D001S704

Universal antifreeze which meets BS 6580/92 standard and provides year round protection to cooling systems of cast iron and alloy engines.

Antifreeze MEG is a universal engine coolant, suitable for all year round usage.

It is manufactured from pure monoethylene glycol, anti-corrosion additives and inhibitors.

It has been specially formulated to be truly universal in its application.

It provides a high degree of corrosion protection for all engine cooling systems whether they are predominantly of aluminium or ferrous construction.

Antifreeze MEG employs established inhibitor technology and is nitrite, amine and phosphate (NAP) free and includes borate and silicate.

Antifreeze MEG contains a bittering agent to prevent accidental consumption and is suitable for all year round usage in automotive and commercial petrol and diesel engines and certain industrial applications.
