

Antifreeze HD - Green - 20L Concentrate

Part No: D027D117

Price: £74.95 (exc VAT) | £89.94 (inc VAT)

Specifications

Antifreeze HD (Green) is a monoethylene glycol based engine coolant concentrate formulated for optimum performance in heavy duty diesel engine applications but equally suitable for light duty use. It employs established inhibitor technology and is phosphate and amine free. BTC Classification Type 3EN. The inhibitors in Antifreeze HD (Green) include organic acids in combination with borate, silicate and nitrite which are well known for their ability to provide excellent protection in heavy duty applications particularly where there is potential for cavitation erosion-corrosion to occur. Antifreeze HD (Green) uses sophisticated silicate stabilisation technology to eliminate the potential for formation of silicate gel often observed with inferior products whilst other additives ensure good compatibility with hard water and prevent the formation of scale that can result from use of hard water.

Product Specification: Antifreeze HD (Green) exceeds the requirements of the following European & International Standards: ASTM D3306 ASTM D4985 ASTM D6210 SAE J1034 BS 6580 (2010) AFNOR NF R15-601 JIS K2234 Antifreeze HD (Green) meets the requirements of the following vehicle/engine manufacturers'

OEM specifications: MAN 324

Cummins ES14603

Leyland Fiat / Iveco BR 637

Perkins

John Deere

Antifreeze HD can be used where Glysantin® G05 was originally recommended.
