Specifications

ElectroStart® Batteryless Power Start 1600A 12V Innovative technology with no internal battery so no need to wait hours for the unit to charge before use.

- Simple and safe to use with no long term battery storage issues.
- Can be fully energised in approximately 3 minutes.
- If the vehicle battery is faulty or is holding less than 5 volts the ElectroStart1600 can be pre-charged via another vehicle's battery, the supplied Micro USB charging cable or the 12V accessory lead.
- Compact and lightweight for easy handling and storage, yet still delivers the same result as heavy, bulky, lead acid battery equivalents.

- Ideal for the professional mechanic and DIY users.
- Supplied in storage bag
