

EC-90TS Electrical Contact Cleaner Spray 500ml

Part No: EC90TS

Price: £12.40 (exc VAT) | £14.88 (inc VAT)

Specifications

EC-90TS Electrical Contact Cleaner Spray 500ml

EC-90 is multipurpose industrial electrical contact maintenance cleaner.

EC-90 electrical contact cleaner spray is ideal for cleaning electrical contacts that are not making full surface contact.

EC-90 electrical contact cleaner will keep the contacts operating at full capacity and prolong the contact life.

Its anti corrosion and anti oxidation properties.

Oxidation can prevent electrical current flow through the contact as carbon and contamination accumulate during use.

EC-90 electrical contact cleaner spray is specially formulated to clean electrical components containing plastic parts.

Electrical contact cleaner will clean electrical contacts, rapidly evaporating and leaving no residue.

EC-90 is also used for rapid cleaning of electrical components, metal components degreases, removes flux, oil, tar and grime.

Formulated as a general replacement solvent for Genklene - 112 chlorinated products.

Application range:

Cleaners/Degreaser

Electrical Products

Benefits:

Provides a good quality cleaning of electrical parts and components

Residue free

Removes oil, greases, dirt and grime

Delays corrosion and oxidation

Fast drying

Gentle manner on delicate components

Prolongs life of Switches
