Specifications

EPT-200 Jasic EVO Power TIG 200 DC

The Jasic EVO POWER TIG 200 PFC (EPT-200) DC TIG welder handles Steel, Stainless Steel, and Titanium.

The EPT 200 give you an entry-level TIG machine in the Jasic EVO range providing you with a DC TIG welder that runs off 230V (generators included).

The EPT-200 is packed with many of the same parameter controls you'll find on the EVO TIG 200 PFC.

Add optional foot controls, including a wireless pedal, if you want that extra functionality while welding.

The ClearVision screen is a high-def LED display set at just the right angle so you can see what's going on without any eye strain.

Switching between MMA and TIG mode is simple—just one button requires to be pressed.

Supplied with all you need to get started: 4m WP26 TIG torch, earth return lead, argon regulator, protective carry case, and gas hose.

Key Features:

Rugged, ergonomic design Dash-Arc Smart Lift TIG Full-featured DC TIG parameters

ABAP: Active Balancing Air Passage Smart gas for optimised shielding gas consumption

Fan on demand Voltage Reduction Device (VRD) Key power electronic component protection

Overcurrent and overheat protection Complete with protective case and TIG leads

Specifications:

Input Voltage: AC 230V 50/60Hz Protection Class: IP23S No Load Voltage: 62V

Efficiency: 86% Power Factor: 0.68 Idle State Power: 25W Insulation Class: H

Recommended Generator size: 9kVA Dimensions: 413 x 150 x 311mm

TIG Welding Specifications:

I_{eff}: 12.1A Rated Input Power: 6.2kVA Current Range: 5-200A Rated Duty Cycle @ 40°C: 20%

MMA Welding Specifications:

I_{eff}: 12.9A Rated Input Power: 6.7kVA Current Range: 10-160A Rated Duty Cycle @ 40°C: 20%
